

Product Features

The Regent is a traditional, heritage, copper lantern which has clear glazing. The lantern is hand crafted in copper with a highly decorative boxed frieze. Its decorative finial and ogee set offer a unique lantern. The visual impact of this lantern is enhanced by the inverted frog.

Features

The Regent is available in a variety of combinations and can be supplied with a door or a hinged lid for relamping. The lantern is frog mounted as standard and designed to fit a 76mm spigot.

Control Gear

All gear is class I wired and a full range of discharge gear can be accommodated integrally within the lantern. The Sugg small road lighting optic can be fitted offering superior lighting performance; this lantern will also take a glass refractor. Single and two part electronic photocells are available as standard with part night cells as an option and should be factory fitted to maintain IP integrity.

Options

Mounting Options

Frog mounted, galvanised steel, powder coated, black polyester for 76mm and 89mm shafts. The frog is also suitable for wall or column bracket mounting and a cradle, and frame suspension are available.
